FESTIVAL OF LEARNING

“HEALING OUR WORLD”

Please join us in this celebration of healing and wellness!

WHAT IS THE FESTIVAL OF LEARNING?

It is a celebration of the inquiry into our world, our environment, the social spaces we occupy, the challenges we face and the solutions we are discovering together to change our world by making it a better place.

We invite various academics, activists, theologians, artists and prospective students to engage these challenging questions of our times and to offer possible solutions.

It is not only a time of sobering enquiry but also of hope and celebration as together we find ways to make our world a better place!
